## Where I am From

I am originally from the small town of Blue Grass, Iowa. I went to college at Iowa State University and am still a HUGE Cyclone fan!

## About My Family

I have 3 sisters and one is my identical twin. I met my husband in Iowa at the Iowa State Fair. We have now been married for 14 years and have 3 boys who are triplets. They will be in 1st grade this year at RCPS.

## Hobbies I Enjoy

My family and I all enjoy showing sheep. In fact, that is what my husband and I were doing when we met. This year we have also added goats to our small farm. Along with working outside, I really enjoy to cook and bake. My kids think that I am an awesome cook. When I have any extra time I like to exercise and play sports. This year I will be incorporating some of my hobbies and yours into our classroom.

## WELCOME!

I am so excited to begin a brand new school year with you! This will begin my second year teaching at Van. I previously taught at Morocco Elementary for 13 years. I have taught many different grades and subjects. I have enjoyed them all and am very excited to teach 5th grade again! Let's look forward to a successful 2015-2016 school year!

## More to Come

---

Please be looking ahead for information to come concerning iPads and online programs such as Edmodo,

I will be updating my website often so please check there first to see if you can find what you are looking for.

I will consistently be checking agenda books for parent signatures. I will be initially check each child's agenda to make sure they have written down the assignments for the day and I will require a parent's signature prior to returning to school the next day. Communication between teachers and parents is key to success and this is one small way for your child to know that we are on the same page.
